As a user, I want to easily browse through a variety of products in the shopping app, with a user-friendly interface that allows me to filter and search for specific items.

Once I find a product I like, I should be able to view detailed information, including prices, specifications, and .customer reviews

The app should provide a smooth and secure checkout process, allowing me to add items to my cart, apply discounts, and

choose a convenient payment method.

Additionally, I would appreciate order tracking and notifications to stay informed about the status of my purchases
